EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Casella on 7/17/07.

The application has been amended as follows:

In Claim 1, at step I), after the phrase 'forcing out', delete "of the" and add - - the degassed - -

Pending claims 1-5 and 8-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites the step of flushing the filter with degassed water before restarting filtration at step i). The references teach using CO₂ gas to do the flushing. Even if the applicant and the references have the same reason for flushing the filter, it is not obvious from the references to use degassed water for flushing instead of CO₂, absent applicant's disclosure; and there is no motivation to make this switch as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
